

MRIDUL RAKHECHA

Software Engineer | Java, Python, JavaScript, SQL

Indore, India | +91 9425962445 | mridulrakhecha@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Software engineer with a **completed Integrated M.Tech** (CSE with AI/ML specialization) experienced in designing and building end-to-end applications with **Java, Spring Boot, React, Next.js, Python, and PostgreSQL**. Developed 3 comprehensive projects (retail ERP, multi-tenant SaaS, theme marketplace) utilizing JWT authentication, role-based access control, and REST/GraphQL APIs.

EDUCATION

Integrated M.Tech, Computer Science and Engineering (Specialization: AI and ML) – Completed **2021–2026**
VIT Bhopal University, Bhopal, Madhya Pradesh, India **GPA: 8.66**

WORK EXPERIENCE

Web Developer Intern **Nov 2023–Feb 2024**
Concept Information System Pvt. Ltd. Indore, India

- Launched a responsive **5-page** corporate website using HTML, CSS, and JavaScript as part of an Agile team.
- Reduced average page load time by **40%** by compressing and resizing images and other static assets.
- Conducted **20+** cross-browser and mobile-device tests to verify responsive layouts and accessibility compliance.

PROJECTS

TrustKhata – Retail ERP & Business Management Platform [GitHub](#)
Java, Spring Boot, Spring Security, JWT, JPA/Hibernate, PostgreSQL, Flyway, React, TypeScript, Tauri

- Built a retail ERP platform with **6 modules**: POS, inventory, customer/supplier tracking, purchase orders, expenses, and reporting.
- Secured all **6 modules** using **Spring Security and JWT**, enforcing role-based access, staff management, and password resets.
- Delivered **5 business reports** (GST, sales analytics, margin, stock, profit/loss) featuring PDF exports and Excel data imports.
- Engineered **25+ REST API endpoints** using Spring Boot, JPA/Hibernate, and PostgreSQL, alongside Flyway schema migrations.
- Created a React/TypeScript frontend with **10+ pages** and a Tauri desktop client, deploying across **2 platforms** (web and desktop).

MenuFlow – Multi-Tenant Restaurant Ordering & Management (Private repository)
Next.js, React, TypeScript, Prisma, PostgreSQL, Socket.IO, GraphQL, REST

- Architected a multi-tenant restaurant SaaS (Next.js, Prisma/PostgreSQL) with tenant data isolation and role-based access for **5 roles**: owners, managers, chefs, cashiers, and waiters.
- Integrated **Socket.IO (WebSockets)** for real-time ordering across **3 event types**: order updates, waiter calls, and bill requests.
- Modeled a relational schema with **8 core entities** (e.g., orders, menu items, subscriptions, reviews) and exposed GraphQL/REST APIs.
- Designed analytics dashboards tracking **4 key metrics**: revenue, order status, peak hours, and popular items.

Customizable Search Workspace & Theme Marketplace [GitHub](#)
React, JavaScript, Spring Boot, JPA, JWT, REST APIs

- Developed a React-based search-page application featuring custom backgrounds, layouts, and **3+ drag-and-resize widgets** (to-do, weather, music).
- Implemented a **7-step theme lifecycle** (create, save, preview, publish, unpublish, search, rate) and the theme marketplace frontend.
- Programmed REST backend services (**Spring Boot, JPA, JWT**) across **3 data domains**: users, themes, and ratings.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL, C++, HTML, CSS

Frameworks & Libraries: Spring Boot, Spring Security, Hibernate/JPA, React, Next.js, Node.js, Express.js, React Query

Databases: PostgreSQL, MySQL, MongoDB, Prisma (ORM), Flyway (migrations)

Tools & Technologies: Git, GitHub, Maven, Vite, Tauri, REST APIs, GraphQL, JWT, Socket.IO, Agile

AI/ML & Computer Vision: PyTorch, TensorFlow, scikit-learn, OpenCV, YOLO, Roboflow

Core Concepts: Data Structures & Algorithms, OOP, RESTful API Design, Authentication & Authorization (RBAC)

CODING & ACHIEVEMENTS

- Solved **400+** DSA problems on [LeetCode](#).
- Regularly compete in programming contests on [Codeforces](#), achieving a **900+** rating.
